Welcome

to our American Science & Surplus catalog. Here you will find a unique mix of industrial, military and educational items, with an emphasis on science and education. We supply a wide range of unusual and hard-to-find items (some say bizarre stuff) to the hobbyist, tinkerer, artist, experimenter, home educator, do-it-yourselfer, and bargain hunter. Our items are great gifts, inexpensive supplies, and an endless reason for a giggle or a "Gee whiz!" We try to be scrupulously honest in presenting whatever we know about what we have, and always take it back, no questions asked, if the customer isn't satisfied with it. Please remember that we offer many more items than will fit on these pages. You can both peruse and purchase every item we have at our website: www.sciplus.com. Thank you for taking the time to browse our catalog. We appreciate your business.

Frequently Asked Questions

What is surplus?

We buy closeouts, inventory overruns, mis-manufactures, and items whose time has not come. We can usually acquire these items on a one-time-only basis. When a surplus item is gone, it is gone. So if you see something you love, best get it now since we may not have it tomorrow. Our website is frequently updated with our inventory. If you see an item in our catalog, but cannot find it online, it means we have sold out of that item. If our stock of the item you have ordered is exhausted we will refund that portion of your remittance. When we can't find surplus, we may carry regular merchandise which we think those interested in learning and tinkering will find appealing, but only if we feel it is good quality at a fair price.

Can I return items?

Yes. We accept all returns without question and will either refund your purchase price or send you a replacement, as you chose. Returns must be made within 30 days of purchase. For complete details, please check the order form bound in the center of this catalog.

What forms of payment do you accept?

We accept Visa, MasterCard, Discover, American Express, checks and money orders. We are sorry to report that we cannot accept CODs, cash, stamps or gold. **If paying by check, please be aware that you are authorizing American Science & Surplus to use the information on your check to make a one-time electronic debit to your checking account. This electronic debit will be for the amount indicated on your check. If you do not have sufficient funds in your account, a returned check fee may be debited from your account. If you have any questions, or choose not to have your check converted into an electronic item, please contact American Science & Surplus at (888) 724-7587.**

Do you have a minimum order requirement?

We regret that the costs of doing business preclude us from processing orders of less than \$10.00 merchandise value (exclusive of shipping and handling). We will return orders of less than \$10.00 merchandise value.

Additional information can be found on the order form bound in the middle of this catalog.

Wait, Let Me Get My Magnifier...

Oh, this item is a magnifier? Great—we needed one because the print is so small, and it's always dark in these places! Anyway, this handheld 2X illuminated magnifier from Carson® has a crystal clear acrylic lens and a 4X bi-focal spot lens—for when the print is extra-extra small. Just place the 3-1/4" dia lens, and turn on the (2) super-bright LEDs. Runs on (2) "C" batteries, which you supply.

The Longer Bit

Sometimes it's not the motion—it's the length. Your drill might be working fine, but that bit of yours might be coming up a little short. We feel your pain, embarrassment and frustration. Try this 11-1/2" drill bit extension with a 1/4" hex shaft that holds 1/4" hex bits. Will flex to about 45 degrees, and is pretty heavy-duty in our estimation. Wink, wink. Also has a magnetic, spring-loaded collet. If you know what we're sayin'.

Krazy® Bonding

If you're old enough to remember the construction worker held in mid-air by a single drop of Krazy® Glue applied to his hardhat and stuck to an I-beam, you know just how miraculous this stuff is. If you're not old enough, you're young enough to Google® it. He probably got fired for tampering with PPE, but this instant glue still powerfully bonds wood, metal, ceramics, pottery, rubber, vinyl, leather and plastic. The stay-fresh container contains (2) grams and a one-drop tube applicator. Keep away from eyes, skin and kids.

Safety is as safety does these days, and we recommend these high-quality, safety goggles, unvented for maximum splatter protection and ANSI Z87.1-rated. Measure 6" wide x 3-5/8" tall x 3-1/8" deep. The black elastic strap is adjustable, and the flexible sides and top allow for a better seal against the face. One size fits most adults, and Pat, the boss around here, slipped them over his glasses, no problem. We've seen them selling for \$9-plus in the Ama-zone. Our price is better, right? Our bulk pricing makes them great for the workplace or schools.

They call it the "Krazy Cutter" and it's going to make your life a whole bunch easier. It's a little 2-3/8" long x 3/16" thick teardrop-shaped paper slicer with a teensy rust- and dullness-proof ceramic blade that magically cuts through paper and plastic. Won't cut your fingers or anything else. You could run it right over your hand, press down and everything, and nothing. Really. We tried it on some expendable employees. You know what this means? You can take it on airplanes, which further means that when you get to the coast you'll actually be able to open all the packages full of the stuff you sent ahead.

Lazy Scott Bearings

Never seemed fair to nail the "lazy" tag so permanently on the "Susans" but that probably has no "bearing" on the issue. Also called turntable bearings, they are the square, flat ball bearing devices YOU bolt between two flat objects to achieve rotation. Like that spinning center section of a Chinese restaurant table. We had these in surplus once and they were quite popular. To our chagrin, we discovered they could be bought commercially for the same price. So we did. The 4" version is rated for a 300lb and the 12" (round) for 1000lbs.

Bone Up On Anatomy

You're not going to blow money on an actual human skeleton, are you? Consider that for a tenth of the price you can get an anatomically accurate skeleton done in plastic. This model is male (judging by the hips) and has many articulated joints—jaw, shoulder, knee, etc. Its small size (33") makes it practical for classroom use, since it can be passed around the room. Other nice touches include discrete neck vertebrae, a sectioned skull, and very little "flash" from the plastic molds. It also comes with a metal display stand, weighted at the bottom to prevent spills. Yes, some concessions had to be made because of the size and price, but this is still an invaluable teaching tool, and quite a nice decoration for those with morbid minds.

Put Cork On It

Or under it, or somewhere. These 1/4" thick cork rubber sheets are approx 22" x 16", and they're surplus from a gasket manufacturer. They make great vibration dampers, and can be cut to fit for furniture and floor protection. Also good to deaden sound in the storage of tools, and pots and pans. Various black streaks through the brown cork may militate against bulletin-board use, but then again maybe not since the bulletins will cover that anyway. And, yes, they're perfect if your hobby just happens to be gasket-making.

We're Talking A Lot Of Pull

Just off the truck (after we all got together and finally pried them free), these rare earth Neodymium Iron Boron (Ndefeb) block magnets have more pull than your mayor. Shaped like a rectangle, they measure approx 1/2" on each side and 1" long, with about 40 lbs of pull. Strong! Coated in a triple layer of nickel-copper-nickel for maximum durability and protection. ISO Certified. Br max:14,500 Gauss.

97544 1" Neo. Magnet \$9.95 / each

Rock The Poles!

We just want to celebrate...this magnet. (Classic rock fans, you're welcome for the references.) This Alnico cylinder magnet measures 9/16" x 11/16" with a 5/16" x 3/8" slot-holed hole (we think that's what it's called) in the center. It's a strong bugger at 10 lbs lifting power in the ends, and very shiny silver. Hole makes it great for attaching string to it and retrieving keys lost down the sewer or well. You know, when you lose your keys that way. Made in the USA. You'll get (1) hyper strong magnet per order.

49505 Cylinder Magnet \$3.50 / each

Really Big Retriever

Like a 300-lb Labrador for the shop. Our ceramic lift magnet is mounted in a metal housing with swivel that will attach to a standard threaded broom handle or painter's pole, and lift 20-25 lbs.

93514 Pick-Up Magnet \$10.95 / each

Excellent Electromagnet

Physics project alert! This robust puppy of a magnet has dual 6V coils and stands 4" high x 3-1/4" wide, not counting the side terminals. Each coil draws 2.4A at 6VDC, and is conservatively rated for 40 Newtons (approx 9 lbs) at that voltage. Can be wired in either parallel or series, and comes with a mounting hook. Works great with a 6-volt lantern battery.

93088 Electromagnet \$22.75 / each

Magnetic Pull

Add a door/drawer pull to any ferrous surface with this 1" dia x 1/4" thick neodymium disc in a polished sleeve with a 3/16" dia hole in a stand-off. Comes with a 1" slip-ring attached, and hangs on for 22 lbs worth. Plenty handy for hanging stuff from other stuff, too.

93515 Neo. Keyring Magnet \$9.25 / each

Rare Find!

Rare earth magnets are usually killers for their size, and these thick nickel neodymium discs are no exception. The price, on the other hand, for (3) 7/16" dia x 1/4" 5-lb lift or (2) 9/16" dia x 3/16" 8-lb lift magnets each stored on a 2" dia steel disc, is a rare exception.

92042 Rare Earth 3 Pack \$4.45 / each

Neodymium Column

We're liking this little plated N45 neodymium magnet because it will stand on end and stick out very prettily on the ice box. Measures 1" tall x 1/4" square with a hefty, for its size, 3-1/2 lb pull, 13,800 gauss. (Will also lie down on its side, of course, because everybody does.)

95658 Neo Bar Magnet \$2.95 / each

Killer Magnet

Once upon a time, a copywriter put this little magnet next to his computer monitor and got really pretty, wavy, aurora-like effects. And then got a new monitor! Don't try this at home. Our shiny, silver-colored 1" x 1" x 3/8" neodymium magnet looks innocent, but is industrial strength, pulling something like 25 lbs with enough strength left over to erase all your credit cards. And wreak havoc with your monitor.

38694 Killer Magnet \$14.50 / each

Nickel-Coated, Quarter-Sized

Nice rare-earth neodymium disk magnet, 1" dia, about the same as a quarter but over twice as thick at 4mm. Rare-earth magnets are permanent and powerful, and this one has approx 7 lbs pull, and always will. Comes with a galvanized metal keeper approx 2" dia so you don't lose it.

93798 1 Inch Disk Magnet \$4.35 / each

Sticky Bar Of Silver

This plated N45 neodymium magnet is shaped like a miniature silver ingot, measuring 1-1/2" long x 1/2" wide x 1/8" thick. Has a big hangability quotient, which the manufacturer claims is 15 lbs of pull, meaning it's probably closer to 13 lbs. Impressive either way.

95659 Neo. Bar Magnet \$4.85 / each

Magnets For Next To Nothing

Although they work best next to steel. You'll get a whole bunch (that's 25) of ceramic magnets at 3/4" dia and either 1/4" thick or 3/16" thick with a center bore approx 1/4". (We'll just grab what's on top, OK?)

A Real Rod Magnet

Our old buddy Rod was quite the magnet—mostly for trouble and Johnny Law—so we can't help feeling nostalgic as we grip this 4" x 3/8" alnico rod magnet. Because of their temperature stability and relatively high magnetic strength, alnico magnets are often used in industry for applications involving rotating machinery, meters and instruments—stuff that would have bored Rod out of his head but is important, nonetheless.

50436 Alnico Rod Magnet \$8.50/each

Alnico Bar Magnet

These Poppy Seeds Weigh A Ton!

Don't put this shaker jar in the wrong place—it's just a clever way to store and use iron filings for a physics class. You'll get a clear glass spice jar-looking jar with a screw cap that lets you dial small/medium/large openings. Inside is 12 oz of iron filings, 40 to 80 microns, the equivalent of grains of sand.

96590 Iron Filing Shaker \$7.50/each

Mystery Magnet

Beats us, frankly, but this black plastic cover, 1-3/4" x 1-1/2" x 1/4" (not unlike a tiny toilet seat cover) is hiding a really nice 1" dia x 1/8" (think: quarter size) plated neodymium magnet, with at least a 5-lb pull, inside. The mystery is that the cover won't open unless you break it. The magnet grabs fine in the case or out of it (and frankly, it makes it easier to take off a surface).

46258 Encased Neodymium \$5.95/pkg(2)

Dandiest Donut in the Domain

Donut magnet you can take to town!! 74mm dia x 14mm thick with a 30mm hole. Very strong and well pedigreed - in fact, its kin are activating pacemakers. They are of a high permeability ferrite material with a lovely light blue or white epoxy coating. Okay, we have them because there is the odd bubble or scratch in the coating which ruled them out of the medical ball, but they're fine company nonetheless. Good display bases, paper clip traps, and super for classroom demos.

2823 Coated Donut Magnet \$3.95/each

Stick To It

Like your cousin the state senator, this N42 neodymium magnet has a lot of pull—an estimated 90 lbs on flat steel surfaces. Ideal for holding, hanging and retrieving objects. Measures approx 1-1/4" dia x 1/4" thick with an M6 eyebolt that has an approx 3/4" inner and 1" outer dimension and serves as a pulling (or hanging from) handle. Nickel-coated steel cup protects the magnet from damage, and concentrates the force on the magnet's surface.

97433 Hanging Neo Magnet \$9.50/each

Plain Donuts

Can't beat a classic. These uncoated ceramic donut magnets have a 1-lb pull, which makes them dandy for classroom or refrigerator use. They measure 1-1/4" dia x 3/8" ID x 3/16" thick and are polarized on the faces. You get a wrapped roll of 29 donuts.

40007 Uncoated Magnets \$8.85/pkg(29)

Ceramic magnets can be quite powerful and have excellent resistance to demagnetization. These rectangular ones are no exception. Add the power of surplus and we'll give you these mighty-mites for bargain prices. This 3-lb-pull guy is 1-7/8" x 7/8" x 3/8" thick, for mounting bigger pix, we figure.

10584 3-lb Ceramic Mag \$3.25/pkg(2)

There's A Hole In The Magnet

The 3/16" bore in the center of this small plated neodymium magnet just makes it easier to mount. Measures 3/4" dia x 1/4" thick with a pull of approx 7 lbs. Works great with #6 or #8 flat head screws.

K & S makes great tubing and sheet stock for hobbyists and DIYers, but all of those tubes and sheets have ends. Knowing that hobbyists and DIYers are creative folk who love bits and pieces and hate waste, they offer big ol' (and little ol') bags of sheet and tubing end scrap. Two sizes of bag to choose from, for all of those projects you will definitely have in the future, not to mention the countless ideas you'll get when you see the assortment you receive. Please Note: Since these bags are full of cut ends, no two bags will be the same and the included materials will always vary bag to bag. #320 is a smaller sized tubing only assortment and #707 is larger sized flats and tubes in a larger bag.

For Walls, Not Skies

Don't use these super-cool FAA aeronautical charts to navigate the skies, because they're expired. Not long ago they were used for training and flight simulators. We have an assortment of random U.S. charts, and we'll send you a great one. They measure approx 58" x 20" but will vary depending on the area of the country they depict. Each is double-sided, color-coded and folded. We repeat: The charts are expired! Not to be used for actual aviation! Know what they're great for, though? Replacing your old Hendrix posters and beer signs, and telling the world you're a sophisticated adult with refined tastes. Since aviation charts expire every 56 days, like the yogurt in our fridge, we're going to keep getting new ones. So keep ordering. Great for techies, travelers and as the coolest wrapping paper anyone's ever seen.

Fishnets

Not fishnet stockings, but netting for actual fish, direct from the U.S. Army (you'd think Navy, wouldn't you?) in olive drab. It's a survival thing. You get a 10-foot x 5-foot net made of 3/4" squares individually knotted from twisted cotton/nylon, so the net won't unravel if torn. Might have a slightly musty aroma (but definitely not fishy) that a little sunshine time will fix. Great for maritime-theme decoration, or, we suppose, fishing. And perfect if you want to go to a costume party as Poseidon.

Ouch!

Looks like a cheap kid-sized tennis racket, but brother, this ain't for the kids. It's actually a fine way for adults to work on their upper-body strength and kill bugs at the same time. 18" long, with a 6" wide paddle lined with metal grid. A coil in the handle sends high voltage through the paddle when a button is pushed; hit a bug with it and the bug will bug you no more. But despite the manufacturer's claims that it's safe for people, Scott reports that flesh-paddle contact delivers a nasty shock, nasty enough to say "Keep this away from kids!" We've seen these in other catalogs for about twice the price, so buy it from us. Just be careful with it. (2) AA batteries, not included.

Don't expect to while away rainy afternoons curled up with this book in your lap. But hey, if you want to hide your fancy watch or stash of...chocolates...somewhere, crack this baby open! It's a book safe, see? Looks just like a worn old book, with "DREAM the impossible SEEK the unknown ACHIEVE greatness" on the cover in white and orange and "DREAM" in white down the spine, but it's hollowed out so you can hide stuff in it. Measures approx 7" x 4-7/8" x 1-1/2" with a 5-1/2" x 3-1/5" x 1-3/16" interior, and has a magnet that snaps it shut. Put it on a high shelf just to be safer.

50189 Stash Box Book \$7.65/each

Save Electricity And Valuables

You can do both with this non-functioning, fake electrical outlet that's actually a small safe. Looks like an ordinary off-white outlet, but has a 7" x 2" x 2-1/4" cavity in back. Swap out a real outlet, or use the teensy dry-wall saw that's included and make a new bogus one anywhere you like. This one even takes plugs for further verisimilitude.

32791 Outlet Safe \$5.95/each

Indoor Charcoal

Bamboo and charcoal aren't just for tiki bars and barbecues anymore. You've got smells, and these odor-absorbing bamboo charcoal air purifying bags will eat them up. You choose: the (4) eco-friendly, reusable La La's Land bags, approx 5" x 5" x 2-1/4" each, which naturally eliminate odors and moisture, rejuvenate when you stick them in the sun a couple hours a month.

Threading Needles In The Dark?

Life, and needle-threading, is hard enough, so this little tailor's friend has a 3/32" loop with a white LED below it so you can see what you're doing. Includes a pair of button-cell batteries and the threader has a cover plus a little hook so you can string it on something and find it in your sewing box.

95631 Lighted Threaders \$5.50/pkg(3)

Hand-held Swiper

I seen it on TV! This window cleaner has a 14" long pivoting handle ending in a 5" x 3-1/2" pad with a removable and machine-washable microfiber cover. It's designed to clean glass with just water and to fit easily into that tricky space where the inside of your windshield meets the dashboard. Works for back windows, too. Even works in trucks. And houses.

94078 Microfiber Wiper \$3.95/pkg(2)

Sew Buttons On Your Overwear

Go ahead and sew them on your underwear too. It's none of our business! This very slick (31)-piece sewing kit from Living Solutions™ comes in a hard-plastic travel case, 8" x 2-1/2" x 1-1/2" (like an eyeglasses case), and includes all your favorites: folding scissors, seam ripper, super glue, measuring tape, (4) buttons, (6) pre-threaded needles, (6) straight pins, (10) safety pins and...a thimble. Duh.

6-String Stand

We've lost a lot of guitar legends lately. Van Halen, Beck, Rossington. The list goes on. And so does the music, so take care of your guitar and store it properly on this sturdy metal stand with padded arms and head. It's 14" tall when closed, but 12-1/4" tall when open x 11-1/4" wide and 12" deep. The (2) rear legs fold out and have adjustable feet. Front legs have padded fold-down arms 5" long before tilted tip ends. Everything's black, like rock-'n'-roll. It'll hold other instruments, too—not just guitars. And if you're not into music, it's a great, sturdy easel that'll display artwork, signs, schedules, announcements, menus—whatever ya got. But if you don't practice that guitar, you'll never make it to the hall of fame.

50437 Guitar Stand \$9.95/each

Dust Like A Giant

Got dusty ceiling fans? High curtain rods? Spots that are hard to reach unless you're 7 feet tall? No problem. Take care of all of your dust once and for all with this sturdy 6-draw telescoping microfiber duster, which extends from a little under 33" all the way to an impressive 110". The business end is approx 17-1/2" x 4" dia and can be bent into whatever shape works for you. Folded down, the whole thing is only 20" long. Not flimsy at all, in case you were wondering about that. Why live with dust when you don't have to?

96853 Telescoping Duster \$12.50/each

Soft Touch

And easy to store. One of the better pick-up tools we've seen. Folds to just over 16" to store, but locks open at 30" with spring steel arms on an aluminum frame. It has soft, suction-cup-shaped grabbers and big, locking pistol grip. Pretty good gripping capacity too-maybe to 10 lbs or so. Get one for Mom, because at her age she can't reach the things she used to. And then get another one for yourself, because you'll be Mom's age before you know it.

92849 30" Pick-Up Tool \$10.95/each

Pillows For Pinheads

OK, ok--we don't mean it. Some of our best friends have little heads. These are mini-pillows for naps at your desk, or on airplanes, or wherever. They're very soft and gooshy, with plush covers and zippers so you can remove the polyester bag of bead stuffing and wash the the outside if you drool on it. (Don't wash the stuffing or the gooshiness will be gone.) Measure just 9" long x 4" dia and we'll pick a pair from our selection of pink, purple, baby blue or lime green.

Mirror Mirror In The Hand

That's right, no need for a wall with this round mirror, which has 5x magnification on (1) side and regular reflection on the other (for non-vampires). Hold it by the convenient handle or open it into a tripod base for hands-free viewing. From Conair®, the mirror is about 5-3/4" in dia, including frame, and 11-1/2" long, including handle (glass is 5" dia). Gray frame swivels to find the angle that makes you look the fairest of them all. Or most. Or some.

50352 Tripod Hand Mirror \$8.75/each

Add-A-Mirror

For travel, or traveling make-up artists, or anyone who needs to stick a small mirror someplace convenient. Mirror itself is a 4-3/8" x 4" glass oval mounted in a white plastic frame on an 11" long flexi-neck with a 2" suction cup to stick to a non-porous surface. Has a handy but unfortunately named suck/release lever for added grabbiness.

49059 Suction-Cup Mirror \$6.75/each

Masseur On A Stick

The rubber bumps on the end of this rolling massager are in rows that rotate independently to rub you the right way. The (6) rubber bumps are in (7) 1-1/4" dia rows on a three-draw telescoping handle that extends from 13" to 23" long, so you can reach the soles of your feet or massage your cat. (Some cats like it, some don't, so a little distance might be good.)

96788 Telescoping Masseur \$2.80/each

Our Very First Robe!

This plush, ridiculously soft, polyester, faux fur robe works great straight out of the shower or in a lounge with your best platform heels. Unisex, like all great purple robes with two-tone brown collars and cuffs that look vaguely big cat-ish. Marked 3X, but we think it's closer to L or XL. Marked 22W-24W, measures 55" long. Put it on and you'll instantly feel like a character in an episode of Baretta. Priced at the very odd \$22.73, but since it's our first robe, complete with classic belt tie, we're happy to cut you a deal.

The Standing Shoehorn

Sure, we love a good shoehorn, but with sciatica like ours, who wants to bend over to use one, knowing it could be curtains? No worries with this svelte model, which telescopes from 12" to 30". The metal horn part is 1-1/2" x 4" and on a spring for easy maneuvering. Ours is dark blue, yours might be another color, but it doesn't matter. Just as long as your socks match.

50390 Telescopic Shoehorn \$4.50/each

Back To The Back Scratcher

It's back. Once upon a carnival, the bamboo back scratcher was the prize every kid came home with and there wasn't an unscratched back in America--unless the kid came home with a goldfish, which are worthless for scratching backs. Now you can return to those thrilling days of yesteryear with our high-quality, 19" long bamboo back scratcher, and you don't even have to go to a carnival to get it.

You Runnin' Hot?

Standard digital thermometers for people never go out of style. Place this one under the tongue or armpit, and you'll get a quick 30 second, Fahrenheit or Celsius digital read-out. Beeps when it's ready and has last memory recall and a protective storage sheath for the tip. Turns off automatically when you forget, which you might do if you're running a fever. See how worth it this is? At this price, you might as well buy two!

49667 Digital Thermometer \$3.95/each

Backscratching In The Dark

It's always a problem finding a telescopic backscratcher in the dark, and when you do, it's usually asleep. We recommend this one, with a glow-in-the-dark creepy hand on the end of a stainless-steel, four-draw collapsible shaft. Measures approx 8" collapsed, and extends to 22-1/2" of back-scratching ease.

Surprise!!

Mystery boxes of stuff like what you see in the catalog. Maybe we had a little left but not enough to continue the listing. Maybe we only got a few as part of an odd lot. Maybe we lost some, and just found them in the warehouse. You will get items which originally listed for at least \$25.00 total in our catalog (or would have, if we had enough). You pick. The "electro-mechanical" box has things like motors, switches, hardware and components that are useful parts but want to be worked into something bigger. The "consumer" box has more ready-to-go type items, and things that don't have as technical a flavor, like bottles, toys, books, and giant rubber bands. The fun is in the mystery and surprise. Perfect if you don't know what to give Aunt Maude and Uncle Ned, or if you can't decide how to bring your order up to the minimum. Every couple of months the contents will keep changing, so even if you have gotten a box before, feel free to order again!!

The ninth part is our name on the side, so you remember where the coolest stuff comes from. Plus it's in the ruler shade of yellow, with a pocket clip.

Need more ink? Our refill pack is a set of (2) black and (2) blue cartridges. Just pull out the silver knurled tip of the pen to screw in a new ink cartridge and your Great American Novel will be finished in no time.

Don't Forget NASA

We suppose commercial space travel is fine, if you can afford it, but let's not forget the little agency we all used to cheer on when driving across three states for vacation seemed like a big deal. Show your love to

the professionals with our official NASA gear. You pick: the NASA Meatball Logo patch is rayon, approx 4" in dia, with a hook and loop back for attaching to various clothing and gear, but you could sew it on something, too; or the sturdy, brushed twill, one-size-fits-most, low-profile black cap with an adjustable hook and look strap, and the classic Meatball Logo, approx 2-1/2" dia. Just so you know. The NASA hat is also available with the modern NASA Worm logo stitched across the front.

Desktop Atom

Yes, your desktop is made of atoms (you, too) but this is a 7" dia chrome and black model of an atomic structure (Boronish, Paul says) that keeps on turning via the magic of electromagnetics, at least until the (4) AA batteries you put in it wear out. Stands approx 9" tall on its base. Ignore that "perpetual motion" on the box, unless you have a perpetual battery. Minimal assembly required, but a maximum person like you won't have a problem with it.

A Jolly Parrot

We like to call this fella Captain Pirate, since that's what it says on the rum barrel he's got one foot propped up on. But the box calls him Capin' Parrot Pirate. Arrrgghh, we're gonna give that one a wide berth. Stands on a 2-3/4" wide oval base, and about 8" tall to the top of the Jolly Roger flapping behind his head. He's holding a bottle of something, and he looks ready to party. We'd be proud to display him in a basement bar, rec room, lake house, camper or back yard.

50383 Parrot Pirate \$4.50/each

Time Marches On

No, it doesn't; it runs out. See for yourself with this hourglass full of iron filings. The steel base has a magnet, so time flies when the glass is on it, and the filings make pretty stalagmites. Stick a magnet on the neck, however, and you can stop time altogether. Glass is 5-1/2" tall on the base and filings run out in about 40 seconds (three trips make a two-minute egg) with the magnet, somewhat longer without it.

95137 The Iron Hourglass \$9.50/each

A 4-Pack Of Lights

You don't chill and guzzle this 4-pack of Lights in front of a game. These are actual light-up lights, in RGB LED color, with a remote control. Lettuce explain. They're called LUMN8™ lights, which we can appreciate, considering we just wrote "Lettuce explain." Measure 2-3/4" dia each x approx 1" thick with (10) super-bright LEDs each, (10) brightness levels and (13) colors, including cool white. Takes (3) "AAA" batteries each and now includes the batteries and a second remote!
